Response to Line 510 - Service Quality Standards and Consumer Protection Rules

Compliance

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”² The FCC found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis.³ In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”⁴

CT Cube, LP (“Company”) hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with the Cellular Telecommunications Industry Association Consumer Code for Wireless Service (“CTIA Code”) as attached and does business as West Central Wireless. The Company furthermore will comply with all requirements set forth in the *2015 Open Internet Order*, as it applies to the Company.

¹ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) (“*2005 ETC Order*”).

² *Id.* at para. 28.

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: “(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy.” *Id.* at n. 71.

⁴ *Id.* at n. 72.

West Central Wireless adheres to 11 points within the CTIA Consumer Code, including disclosing rates, additional taxes, fees, surcharges and terms of service; providing coverage maps; making customer service readily accessible; and allowing a trial period for new service.

1. WEST CENTRAL WIRELESS DISCLOSES RATES AND TERMS OF SERVICE TO CONSUMERS

For each service plan offered to new consumers, West Central Wireless discloses to consumers at point of sale and on its web sites, at least the following information, as applicable: (a) the coverage area for the service; (b) any activation or initiation fee; (c) the monthly access fee or base charge; (d) the amount and nature of any voice, messaging, or data allowances included in the plan (such as night and weekend minutes); (e) the charges for domestic usage in excess of any included allowances or outside of the coverage area; (f) for prepaid service plans, the period of time during which any balance is available for use; (g) whether there are prohibitions on data service usage and whether there are network management practices that will have a material impact on the customer's wireless data experience; (h) whether any additional taxes, fees or surcharges apply; (i) the amount or range of any such fees or surcharges that are collected and retained by the carrier; (j) the amount or nature of any late payment fee; (k) whether a fixed-term contract is required and its duration; (l) the amount and nature of any early termination fee that may apply; and (m) the trial period during which a consumer may cancel service without any early termination fee, as long as the consumer complies with any applicable return policy.

2. WEST CENTRAL WIRELESS MAKES AVAILABLE MAPS SHOWING WHERE SERVICE IS GENERALLY AVAILABLE

West Central Wireless makes available at point of sale and on its web sites maps depicting approximate domestic coverage applicable to each of their service plans currently offered to consumers. To enable consumers to make comparisons among carriers, West Central Wireless generated this map using generally accepted methodologies and standards to depict outdoor coverage. All such maps will contain or link to an appropriate legend concerning limitations and/or variations in wireless coverage and map usage, including any geographic limitations on the availability of any services included in the plan. West Central Wireless periodically updates such maps as necessary to keep them reasonably current. If necessary to show the extent of service coverage available to customers from carriers' roaming partners, West Central Wireless incorporates coverage maps from roaming partners that are generated using similar industry-accepted criteria, or if such information is not available, incorporate publicly available information regarding roaming partners' coverage areas.

3. WEST CENTRAL WIRELESS PROVIDES CONTRACT TERMS TO CUSTOMERS AND CONFIRMS CHANGES IN SERVICE

When a customer initiates new service or a change in existing service, West Central Wireless provides or confirms any new material terms and conditions of the ongoing service with the customer.

4. WEST CENTRAL WIRELESS ALLOWS A TRIAL PERIOD FOR NEW SERVICE

When a customer initiates postpaid service with West Central Wireless, the customer will be informed of and given a period of not less than 14 days to try out the service. West Central Wireless does not impose an early termination fee if the customer cancels service within this period, provided

that the customer complies with applicable return and/or exchange policies. Other charges, including usage charges, may still apply.

5. WEST CENTRAL WIRELESS PROVIDES SPECIFIC DISCLOSURES IN ADVERTISING

In advertising of prices for wireless service plans or devices, West Central Wireless discloses material charges and conditions related to the advertised prices and services, including if applicable and to the extent the advertising medium reasonably allows: (a) whether activation or initiation fees apply; (b) monthly access fees or base charges; (c) the amount and nature of any voice, messaging, or data service allowances included in the plan; (d) the charges for any domestic usage in excess of any included allowances or outside of the coverage area; (e) for prepaid service plans, the period of time during which any balance is available for use; (f) whether there are network management practices that will have a material impact on the customer's wireless data experience; (g) whether any additional taxes, fees or surcharges apply; (h) the amount or range of any such fees or surcharges that are collected and retained by the carrier; (i) whether a fixed-term contract is required and its duration; (j) early termination fees; (k) the terms and conditions related to receiving a product or service for "free;" (l) for any service plan advertised as "nationwide," (or using similar terms), the carrier will have available substantiation for this claim; and (i) whether prices or benefits apply only for a limited time or promotional period and, if so, whether any different fees or charges will apply for the remainder of the contract term.

6. WEST CENTRAL WIRELESS SEPARATELY IDENTIFIES CARRIER CHARGES FROM TAXES ON BILLING STATEMENTS

On customers' bills, West Central Wireless distinguishes (a) monthly charges for service and features, and other Charges collected and retained by West Central Wireless, from (b) taxes, fees and other charges collected by West Central Wireless and remitted to federal state or local governments. West Central Wireless will not label cost recovery fees or charges as taxes.

7. WEST CENTRAL WIRELESS PROVIDES CUSTOMERS THE RIGHT TO TERMINATE SERVICE FOR CHANGES TO CONTRACT TERMS

West Central Wireless will not modify the material terms of their postpaid customers' contracts in a manner that is materially adverse to those customers without providing a reasonable advance notice of a proposed modification and allowing those customers a time period of not less than 14 days to cancel their contracts with no early termination fee.

8. WEST CENTRAL WIRELESS PROVIDES READY ACCESS TO CUSTOMER SERVICE

Customers will be provided a toll-free telephone number to access West Central Wireless' customer service during normal business hours. Customer service contact information will be provided to customers online and on billing statements. West Central Wireless provides information about how customers can contact the carrier in writing, by toll-free telephone number, via the Internet or otherwise with any inquiries or complaints, and this information is included, at a minimum, on all billing statements, in written responses to customer inquiries and on West Central Wireless' web sites. West Central Wireless also makes such contact information available, upon request, to any customer calling customer service departments.

9. WEST CENTRAL WIRELESS PROMPTLY RESPONDS TO CONSUMER INQUIRIES AND COMPLAINTS RECEIVED FROM GOVERNMENT AGENCIES

West Central Wireless responds in writing to state or federal administrative agencies within 30 days of receiving written consumer complaints from any such agency.

10. WEST CENTRAL WIRELESS ABIDES BY POLICIES FOR PROTECTION OF CUSTOMER PRIVACY

West Central Wireless abides by a policy regarding the privacy of customer information in accordance with applicable federal and state laws, and makes available to the public its privacy policy concerning information collected online. West Central Wireless abides by the CTIA Best Practices and Guidelines or Location-Based Services.

11. WEST CENTRAL WIRELESS PROVIDES CONSUMERS WITH FREE NOTIFICATIONS FOR VOICE, DATA AND MESSAGING USAGE, AND INTERNATIONAL ROAMING

West Central Wireless provides, at no charge: (a) a notification to consumers of currently-offered and future domestic wireless plans that include limited data allowances when consumers approach and exceed their allowance for data usage and will incur overage charges; (b) a notification to consumers of currently-offered and future domestic voice and messaging plans that include limited voice and messaging allowances when consumers approach and exceed their allowance for those services and will incur overage charges; and (c) a notification to consumers without an international roaming plan/package whose devices have registered abroad and who may incur charges for international usage. West Central Wireless generates the notifications described above to postpaid consumers based on information available at the time the notification is sent. Wireless consumers will not have to affirmatively sign up in order for these notifications to be sent. West Central Wireless clearly and conspicuously discloses tools or services that enable consumers to track, monitor and/or set limits on voice, messaging and data usage.

Response to Line 610 - Ability to Function in Emergency Situations

CT Cube, LP (“Company”) hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2).¹ The Company’s network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations also allows the Company to manage traffic spikes throughout its network, as emergency situations require.

The Company’s network is homed back to a central switching center that is fully supported by automated emergency back-up generators. The connecting trunking and signaling circuits are also on a diverse route to avoid prolonged outages. The Company’s tower sites have one to eight hours of battery back-up and strategic sites have emergency generators. If necessary, in emergency situations, the company can deploy portable or temporary cellular base stations.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to “demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”

LIFELINE PROGRAM

I. STATE LIFELINE PROGRAM

The State Lifeline Program ("State Lifeline") is a retail local service offering designated to make telephone service available at reduced rates to qualifying low-income customers.

A. General

1. A qualifying low-income customer subscribing to State Lifeline shall receive state reductions to their monthly tariffed residential local exchange access line rate.
2. Nothing in this section shall prohibit a customer who is otherwise eligible for State Lifeline from obtaining and using telecommunications equipment and services designed to aid such customer in utilizing qualifying telecommunications service.
3. State Lifeline rate reductions apply only to basic network service and do not apply to non-basic services, regulated or non-regulated, such as long distance service or custom calling services. Customers may subscribe to these services, where available, at their discretion. If the customer subscribes to a bundled service, where available, the discount shall only apply to the basic network service portion of the bundled service.
4. State Lifeline rate reductions do not apply to service connection charges.
5. The Company may not disconnect the service of a State Lifeline customer for the non-payment of toll charges unless the Company has received a waiver from the Commission allowing disconnection of service for this reason.
6. Upon subscribing to State Lifeline, a customer will be offered a subscription, at no charge, to toll blocking service (in exchanges where technically available) which denies the customer access to the long distance telecommunications network; however, the customer is under no obligation to accept the subscription to toll blocking.
7. The Company will waive number portability charges, subject to the tariff, for the Lifeline customer.
8. State Lifeline rate reductions will not be available on a retroactive basis except as directed by LIDA or the Commission.

II. FEDERAL LIFELINE PROGRAM

N

The federal Lifeline Program is a retail local service offering designed to make telephone and/or broadband service available at reduced rates to qualifying low-income customers.

A. General

1. A qualifying low-income customer subscribing to designated federal Lifeline Program Services, as outlined below, is eligible to receive federal reductions to either his/her monthly tariffed residential local exchange access line rate and federal subscriber line charge or his/her monthly retail rate for an eligible broadband service. The qualifying low-income customer can only receive one federal discount on one service option.
2. Nothing in this section shall prohibit a customer who is otherwise eligible for the federal Lifeline Program from obtaining and using telecommunications equipment and services designed to aid such customer in utilizing qualifying telecommunications service.
3. The federal Lifeline Program rate reductions do not apply to service connection charges, except that customers eligible for the Tribal Link Up Program will receive a 100% reduction, up to \$100.00, on applicable service connection charges.
4. The Company may not disconnect the service of a federal Lifeline Program customer for the non-payment of toll charges unless the Company has received a waiver from the Commission allowing disconnection of service for this reason.
5. Upon subscribing to the federal Lifeline Program, a customer will be offered a subscription, at no charge, to toll blocking service (in exchanges where technically available) which denies the customer access to the long distance telecommunications network; however, the customer is under no obligation to accept the subscription to toll blocking.
6. The Company will waive number portability charges, subject to the tariff, for the Lifeline customer.
